Project Overview:

- FOR college students who seek reliable, student-driven insights on their professors and courses.
- WHO faces the challenge of selecting the right professors and courses without sufficient feedback from peers or credible sources.
- The Campus Critics website is a student review and rating platform
- THAT provides comprehensive, real-time feedback on professors and courses, helping students make informed academic decisions. The platform aggregates student experiences, ratings, and

detailed reviews to ensure transparency and improve the overall educational experience.

- UNLIKE other scattered review sources such as social media forums, university word-of-mouth, or outdated faculty evaluation systems,
- OUR PRODUCT offers a structured, verified, and user-friendly interface that prioritizes honest student feedback, comprehensive professor profiles, and detailed course evaluations.

Key Features:

1. Professor Ratings & Reviews – Students can rate professors based on parameters like teaching effectiveness, grading leniency, course difficulty, and overall experience.
2. Course Insights – Detailed breakdowns of courses, including workload expectations, difficulty level, and student recommendations.
3. Verified Student Reviews – Ensures credibility through authentication processes, minimizing fake reviews and spam.
4. Student-Recommended Resources - Previous students can share helpful resources such as YouTube channels, websites and study materials to assist future students in the course.
